

Monday 3 July 2017

Dear Parents

I am writing this letter to inform you that our Year 7 students have the opportunity to be part of an international study based on the mathematical inquiry approach we have been implementing this year.

The study is part of some research that a senior lecturer from Massey University is undertaking. Attached is an outline of the research project with specific details. In week 1 of Term 3 our Year 7 students will undertake a test as part of the maths for the week.

If you do not wish your child to sit the test and be part of the study, please complete the opt out slip below and return to the office.

If you have any questions, please do not hesitate to contact me.

Regards

Leanne Somerville Smith

.....  
**Please return to the school office  
By Friday 7 July**

I do not wish my child .....Room ..... to  
take the test and be part of the Massey University research.
